

# Proximity of Crisis Pregnancy Centers (CPCs) to US Colleges & Universities, 2021

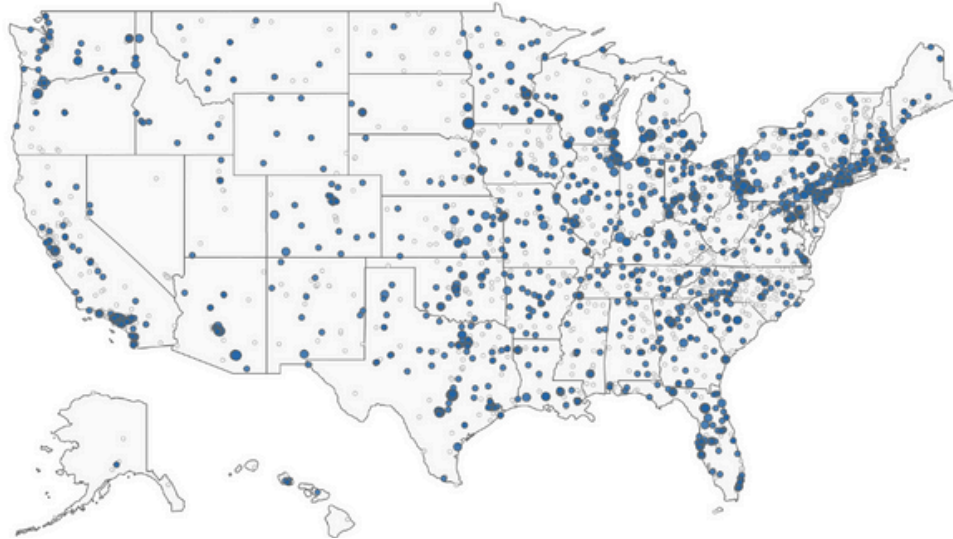

CPCs are located in close proximity to colleges in the United States (US). In addition to locating near schools, CPCs target students by including dedicated content on their websites including directions from nearby schools, sponsoring and conducting outreach to student groups, and hosting on-campus activities. College and university students may be more likely to experience potential CPC harms.

More than **50%** of undergrad women in the US attend a college or university that has a CPC within 3-miles.

Almost **70%** of historically Black colleges or universities have at least one CPC within a 10-minute drive.
