

CPC Map Data Use Request

Description of Data:

CPC Map aims to provide location and health-related service information about crisis pregnancy centers operating in the United States. Data are generated from standard, published protocols using a combination of online research and phone calls to confirm center eligibility and current operational status. To be included in the CPC Map database, centers must operate in a brick-and-mortar location and provide free pregnancy testing. The most current data are made available as an online interactive map on our website, and current and past datasets are also available through approved and executed data use agreements (DUAs). Data were initially collected in 2018 and have been updated in 2021, 2024, and 2026.

Dataset Year	Data Collection Time Points	Published
2018	April – August 2018	August 2018
2021	January – September 2021	December 2021
2024	June 2023 – March 2024	January 2025
2026	February 2025 – March 2026	August 2026

Data use requests are reviewed by the CPC Map Team on a case-by-case basis. Data may be requested for research, program planning, and/or journalistic purposes only. CPC Map data are not made available to individuals or for commercial purposes. Approved DUAs are subsequently executed between the University of Georgia (UGA) and the requestor's institution/organization. This process may take several weeks, depending on the institution, and requires an authorized signatory from all entities before data are shared.

Unless an exception is approved in advance and documented by the CPC Map team, the following data uses are not allowable: (1) Recreating all or parts of CPC Map's interactive online map; (2) Requesting data from more than two timepoints; (3) Publishing or publicly sharing data that identifies one or more individual centers; and (4) Recreating maps, briefs, or fact sheets already available on the CPC Map website. For more information about existing and forthcoming products, reports, and publications, please refer to [Our Publications](#) and [News & Updates](#) to avoid overlap.

After a DUA is executed and data are provided, any additional analyses or activities beyond those documented and agreed upon in the original DUA require explicit approval by the CPC Map Team and a new or amended DUA. Data are not to be shared with any party outside of collaborators listed in the approved DUA. Substantive changes to the project (e.g., inclusion of other collaborators who will have access to the data, changes in institutional affiliations, changes in the scope of the study) will require a new or amended DUA and approval process.

In all dissemination materials (e.g., posters, presentations, manuscripts, fact sheets, brochures, press releases, etc.), the Database(s) should be cited as:

Swartzendruber A and Lambert D. Crisis Pregnancy Center Map, [Year].
www.cpcmap.com. Published [Date based on dataset]. Accessed: [Date].

Disposition Requirements upon the Termination or Expiration of the Agreement:
Destruction

Complete all fields below in detail about your planned project/use. The information provided in this data use request will be directly imported into the executable contract between UGA and all involved entities, if approved. Requests with insufficient information will be returned for revision and can slow review and approval. Once completed, upload and submit your Data Use Request Form on the CPC Map website.

Working Title of Proposed Project:

Lead Requestor's Information:

Name and Degrees:

Position:

Institution:

Mailing Address:

Email:

Phone Number:

Collaborators (i.e., co-investigators, staff, students, trainees) Who Will Have Access to the Requested Data:

List each collaborator's name, degree, position, institution, email address, and phone number. Any changes and/or additions to personnel post-approval will require a new or amended DUA.

1. For what purpose(s) are you requesting data from CPC Map? *Check all that apply.*

- ☐ Research
- ☐ Program planning
- ☐ Journalism
- ☐ Other, specify:

2. Is your planned project/uses for any of the following purposes? *Check all that apply.*

- ☐ Part of an already funded grant application
- ☐ Part of a submitted or in preparation grant application
- ☐ A doctoral dissertation
- ☐ A master's thesis or other graduate-level deliverable
- ☐ An undergraduate thesis or honors project
- ☐ A course project
- ☐ None of the above

If part of a grant application:

Funder:

Grant Title:

If for use in a dissertation, thesis, or honors project:

Chair/Advisor's Name:

Position/Title:

Email:

3. Indicate how CPC Map data are proposed to be used: *Check all that apply.*

- ☐ Summarize data
- ☐ Analysis of data
- ☐ Verification of centers / sampling frame
- ☐ Other, specify:

4. For how long will you need access to the database(s)? *Approval is renewable for up to one year.*

- ☐ 3 months
- ☐ 6 months
- ☐ 1 year
- ☐ 2 years

5. Which datasets are you requesting access to? *Multi-year requests are limited to two timepoints.*

- ☐ 2018
☐ 2019
☐ 2021
☐ 2024
☐ 2026

6. Indicate which variables you will need to complete the planned analyses/uses:

Data Available	2018	2019	2021	2024	2026
Contact Information					
Center Name	☐		☐	☐	☐
Street	☐		☐	☐	☐
City	☐		☐	☐	☐
State	☐		☐	☐	☐
Zip Code	☐		☐	☐	☐
Latitude/Longitude	☐		☐	☐	☐
U.S. Census Region	☐		☐	☐	☐
U.S. Census Division	☐		☐	☐	☐
Phone Number	☐		☐	☐	☐
Client-Facing Website URL	☐		☐	☐	☐
Advertised Services					
Limited Ultrasound	☐		☐	☐	☐
STI Testing		☐		☐	☐
STI Treatment		☐		☐	
HIV Testing		☐		☐	
On-Site “Abortion Pill Reversal”				☐	☐

7. What geographic region will you need data from to complete the planned analyses/uses?

- ☐ Nationally (All 50 U.S. states & D.C.)
☐ Specific region, state(s), or local(s); specify:

8. In a few sentences, provide a brief overview of your request and planned uses.

9. Provide detailed background information and a rationale for your planned project.

10. What are the aims or objectives of your project, analyses, or planned use? Describe how the requested CPC Map data will support you in accomplishing the project's goals.

11. For research-based requests, what are the specific hypotheses of your planned project or analyses?

12. Describe your data management procedures. Include mechanisms to secure the data, preserve confidentiality, prevent unauthorized access, and destroy data among all collaborators at the end of the project.

13. Indicate the anticipated type(s) of dissemination products resulting from this project:

Check all that apply.

- ☐ Publication (i.e., manuscript, book, chapter, or journal editorial)
- ☐ Dissertation or thesis
- ☐ Course project or similar deliverable
- ☐ Conference presentation
- ☐ Public report or website
- ☐ Public presentation, webinar, or roundtable discussion
- ☐ Policy brief or factsheet
- ☐ Map or another visual asset
- ☐ Media or news article
- ☐ Other, specify:
- ☐ No planned public dissemination

14. Provide more description of the anticipated products, as indicated above, and the number and outlets/channels. If not intended for public dissemination, please explain.

15. References

Decision About Data Use Request *(Admin Use Only)*

Date:

Decision About Data Use: *Check all that apply.*

- ☐ Request Approved
- ☐ Request Denied
- ☐ Modifications Requested, as listed below
